

AE 201 Indicators

"The Affordable Choice"

The AE 201 indicator is a general purpose weighing indicator for use with strain gauge load cells.

- Simple operation
- Keyboard calibration and configuration
- Weighing up to 1:15,000 divisions
- Up to eight 350 ohm load cells can be used
- Operation from internal rechargeable battery or mains power
- Preset or semi-automatic tare
- Manual or automatic memory accumulation facility
- Selectable digital filtering for animal weighing
- Selectable automatic power off
- RS-232 Interface

SPECIFICATIONS

INPUT SECTION	
Load Cells	Minimum 40 ohm load cells Maximum 1200 ohm
Sensitivity	0.7 μ v/ internal increment
Excitation Voltage	5V, 125mA Minimum 40 ohm load cells Maximum 1200 ohm (Up to eight 350 ohm load cells)
Zero Input Range	0 to +2.5mv
Input Range	0 to 15mv
POWER SUPPLY	
External Power Supply	230VAC / 110VAC, 50/60Hz 10 watts
Connector	9 pin d-sub-miniature socket
Internal Batteries	Internal 6V lead acid battery, charged by internal power supply
WEIGHING	
Display Units, default	Kilograms, Pounds
Readability	Selectable, 0.001kg to 50kg
